SUBJECT Life Spring Training Given to Some at CIA

[Excerpt taken from Part III of Geraldo Rivera's series on the adverse effects of Life Spring training.]

GERALDO RIVERA: ...Life Spring training sessions have also been given to staff members of the CIA, the Defense Communications Agency, the House Foreign Affairs Committee, and the Select Committee on Intelligence, among others.

Now as for percentage of Life Spring graduates who have been adversely affected by the training, well, we have no idea. Neither does Life Spring, because they do virtually no follow-up.

Clearly the training does not hurt everyone. But those who have been hurt, the casualties, cry out for some kind of regulation of businesses like Life Spring.
